SKILLS

- IaC(AWS CDK)
- Serverless systems
- JS & TS
- React & Next & Vue
- HTML & CSS

WORK EXPRIENCE

SOFTWARE ENGINEER

Uppercasebrands 2021 - Present

- Created a brand new SaaS application for Shopify platform and two microservices for existing SaaS application. For these projects, my responsibilities extended from designing the underlying system architecture to implementing CI/CD and OAuth flows.
- Built multiple e-commerce websites by implementing Figma designs.

ACADEMIC ACHIEVEMENT

27,870th place in National University Entrance Exam among ~2 million Participants (2015)

SIDE PROJECTS

INSENTENCE.NET

The project aims for a future where education is equally accessible worldwide.

- It uses AWS services for computing and distribution but it leverages the best-in-class AI tool in Azure to convert text to speech.
- The thresholds of this project were serving dynamic pages without using compute source and using real-time data for sitemap.xml.

CDK EXAMPLES

I have created the cdk-examples to demonstrate my ability to develop and deploy infrastructure as code in a scalable and efficient manner by using AWS Cloud Development Kit (CDK).

HAHUAZ.DEV

I maintain a personal blog site where I document my solutions in software development. I hope it becomes a reliable resource for others who may encounter similar challenges and contribute back to the community that has given me so much.

CERTIFICATES & BADGES

- 2023/03/17 - AWS Architecting Badge: Represents technical skills and knowledge of AWS concepts and services with a focus on designing solutions on AWS.
- 2023/02/16 - AWS Serverless Badge: Signifies expertise in designing and implementing serverless applications.
